

## **Citi Recognized for Innovation and Service in Structured Investments in Hong Kong**

HONG KONG - Citi was recently honored for its innovation and achievements in the Annual Asia-Pacific Structured Products and Derivatives Awards 2015 in Hong Kong. The event was hosted by Structured Retail Products, a division of Euromoney.

Citi was recognized as an industry leader as the “Best House, Hong Kong.” The Awards are driven by quantitative analysis through a survey of clients and participants in the structured investments industry.

“In receiving this award, Citi is identified as a strong business in the Hong Kong market. We have focused our delivery of investment solutions including structured notes, certificates and more, to enable investors to access global markets. Beyond local equity underlyings, we have seen strong demand for US and Japanese equity exposures, as well as non-equity underlyings such as gold, oil and foreign exchange,” said Bernard Wai, Managing Director and Asia Pacific Head of Private Client Solutions.

“This award reflects the prior and ongoing investment we have made to strategically position our global platform,” said Cyrille Troublaiewitch, Managing Director and Asia Pacific Head of the Multi Asset Group, Citi’s structuring capability. “Through that we are able to tactically respond to market developments and investor needs, and continue to play our part in the evolution of the investment and solutions market in Hong Kong as our hub into Asia.”

The bank’s structured investments are designed to meet a range of financial goals including yield enhancement, hedging risk and access to global markets.

###

Citi, the leading global bank, has approximately 200 million customer accounts and does business in more than 160 countries and jurisdictions. Citi provides consumers, corporations, governments and institutions with a broad range of financial products and services, including consumer banking and credit, corporate and investment banking, securities brokerage, transaction services, and wealth management.
